BISAZZA

Unequaled luxury in glass mosaic

Welcome to the world of Bisazza.

Bisazza mosaic is the ultimate choice of the discerning and design conscious the world over.

For more than 50 years, Bisazza has been at the pinnacle of mosaic design and is responsible for some of the industry's most important innovations.

Bisazza's passion for mosaic is expressed in the way we collaborate creatively with the world's leading figures in architecture, design, art and fashion.

Our transformative approach can be clearly seen in the beauty of the design, the depth of detail in each and every square, and in the quality of manufacturing.

Every mosaic is carefully fabricated using the most exquisite raw materials: oxides to bring depth to the colour and the finest silica sand to create the glass.

The essence of Bisazza lies in the fusion of creativity and absolute luxury that culminates in the most beautiful glass mosaic for interior and exterior decoration.

We are also the only company to make a range of coloured grouts known as "Fill Gel" which perfectly complement the overall appearance of the pool.

This makes Bisazza the first choice for some of the world's most exclusive resorts and spas, including the Palazzo Versace on Australia's Gold Coast.

The 2014 Pools Collection is exclusive to Australia and New Zealand. It is a range of specially selected colours and textures that perfectly complement the unique southern hemisphere sunlight.

And this is why, when you choose Bisazza, you enter a whole new world of unequalled luxury in glass mosaic.

IMPORTANT. You need to tear off this section and hand it to your builder. It contains essential technical information.

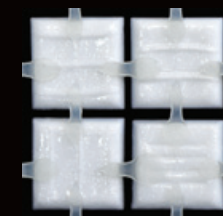

New information for builders and installers about the Bisazza Australian Pools Collection.

As part of an ongoing programme of technical innovation, Bisazza have recently launched a revolutionary new hotmelt system.

This system raises adhesion quality beyond the Australian Standards requirement and makes it easier to install Bisazza glass mosaic.

The new system also makes the alignment of the mosaic very even and allows for deep and uniform penetration of the grout.

- New hotmelt mounting system
- Exceeds the latest Australian Standards
- Easier to install
- Applies to the entire Bisazza 2014 Pools Collection

The new hotmelt system exceeds Australian Standards
